General admission: diploma requirements 2021/2022

Are you an international student and would you like to find out whether you might be eligible for admission to a bachelor's programme at Leiden University? Leiden University's Admissions Office has drawn up a list of the most common non-Dutch diplomas that meet the minimum admission requirements for our programmes. Where applicable, minimum grades and language test exemption criteria have been included.

Important notes

- The fact that a diploma is on the Admissions Office's list does not mean that it is always considered equivalent to a Dutch pre-university diploma (VWO diploma), nor that it will automatically guarantee you admission. Grades, subjects followed and subject levels are also considered.
- A decision on admission will only be taken after you have submitted a complete online application for admission.
- If you do not (expect to) meet the minimum requirements, an alternative pathway to admission can be to first complete at least one year of a Bachelor's programme at a research university in your country, with good results.
- [Leiden University College, The Hague](#) and 'numerus fixus' study programmes have a selective admission procedure. This means that meeting the admission requirements does not guarantee a place.
- Programmes in the fields of [mathematics and natural sciences](#), [medicine](#) and [classics](#) all require knowledge of compulsory subjects at Dutch VWO (pre-university diploma) level. Programmes in the field of [social and behavioural sciences](#) will also consider the amount/level of mathematics included in your diploma. Depending on your level in these subjects, you may be instructed to take additional entrance examinations.
