III. Resources

Bibliography: Homegrown Terrorism and Radicalisation
Compiled and selected by Judith Tinnes

[Bibliographic Series of Perspectives on Terrorism - BSPT-JT-2015-6]

Abstract

This bibliography contains journal articles, book chapters, books, edited volumes, theses, grey literature, bibliographies and other resources on homegrown terrorism and radicalisation. Though focusing on recent literature, the bibliography is not restricted to a particular time period and covers publications up to the middle of November 2015. The literature has been retrieved by manually browsing more than 200 core and periphery sources in the field of terrorism studies. Additionally, full-text and reference retrieval systems have been employed to expand the search.

Keywords: bibliography; resources; literature; homegrown terrorism; domestic terrorism; homegrown radicalisation; national security

NB: Publications focusing on Lone Wolf Terrorism have been largely excluded as the topic has been covered in a previous bibliography compiled by Eric Price. All websites were last visited on 21.11.2015. - See also Note for the Reader at the end of this literature list.

Note
Whenever retrievable, URLs for freely available versions of subscription-based publications have been provided. Thanks to the Open Access movement, self-archiving of publications in institutional repositories or on author homepages for free public use (so-called Green Open Access) has become more common. Please note, that the content of Green Open Access documents is not necessarily identical to the officially published versions (e.g., in case of pre-prints); it might, therefore, not have passed through all editorial stages publishers employ to ensure quality control (peer review, copy and layout editing etc.). In some cases, articles may only be cited after getting consent by the author(s).

About the compiler: Judith Tinnes, Ph.D., studied Information Science and New German Literature and Linguistics at the Saarland University (Germany). Her doctoral thesis dealt with Internet usage of Islamist terrorists and insurgents. Currently, she works in the research & development department of the Leibniz Institute for Psychology Information (ZPID). She also serves as an Editorial Assistant for Perspectives on Terrorism.
