

Bibliography: Economic Aspects of Terrorism

Compiled and selected by Judith Tinnes

[Bibliographic Series of Perspectives on Terrorism – BSPT-JT-2021-3]

Abstract

This bibliography contains journal articles, book chapters, books, edited volumes, theses, grey literature, bibliographies and other resources on economic aspects of terrorism (such as eco-terrorism, economic grievances and unemployment as root causes of terrorism, the economic impact of terrorist attacks, or financial costs of CT-measures). Literature on terrorist financing has been excluded as it will be covered separately. The bibliography focuses on recent publications (up to May 2021) and should not be considered as exhaustive. The literature has been retrieved by manually browsing more than 200 core and periphery sources in the field of Terrorism Studies. Additionally, full-text and reference retrieval systems have been employed to broaden the search.

Keywords: bibliography, resources, literature, terrorism, economic aspects, eco-terrorism, grievances, poverty, unemployment, economic impact, financial costs, attacks, CT-measures

NB: All websites were last visited on 22.05.2021. - See also Note for the Reader at the end of this literature list.

Note

Whenever retrievable, URLs for freely available versions of subscription-based publications have been provided. Thanks to the Open Access movement, self-archiving of publications in institutional repositories, on professional networking sites, or author homepages for free public use (so-called Green Open Access) has become more common. Please note, that the content of Green Open Access documents is not necessarily identical to the officially published versions (e.g., in case of preprints); it might therefore not have passed through all editorial phases publishers employ to ensure quality control (peer review, copy and layout editing etc.). In some cases, articles may only be cited after obtaining permission by the author(s).

About the Compiler: Judith Tinnes, Ph.D., is a Professional Information Specialist. Since 2011, she works for the Leibniz Institute for Psychology ([ZPID](https://www.zpid.de)). Additionally, she serves as Information Resources Editor to 'Perspectives on Terrorism'. In her editorial role, she regularly compiles bibliographies and other resources for Terrorism Research (for an inventory, visit <https://archive.org/details/terrorism-research-bibliographies>). She wrote her [doctoral thesis](#) on Internet usage of Islamist terrorists and insurgents (focus: media-oriented hostage takings). E-mail: j.tinnes@gmx.de
