Students are welcome at the LUMC for scheduled on campus education activities and reserved study spaces. Health and safety of our patients, students and staff comes first. Below you will find everything you need to know regarding safe on campus education and study spaces. This policy is in line with the Leiden University Campus Protocol.

The measures below are in effect from 22 March until at least 4 April 2022. These measures will be re-assessed on 31 March.

Measures are lifted gradually. These are the changes per 22 March:
There are no new changes per 22 March: the current measures have been extended.

Good to know that:
- You should follow the RIVM guidelines on quarantine
- The schedule app has the latest information about the location of your lecture or tutorial
- You no longer have to book study spaces in advance.

General measures
We urge our students and staff to keep to the precautionary measures to prevent the spread of coronavirus.

These general measures apply to all education in the LUMC:

Do the corona check before you visit the University
Stay at home if the check tells you to

As a preventive measure, take a self-test twice a week

Stick to the hygiene measures

Wear a face mask when you move around the building

Need to go in quarantine? Follow the RIVM guidelines on quarantine

Coronacheck
Leiden University has created a corona check. Please do this check for every visit. As a preventive measure, we ask you to take a self-test twice a week, or at least before each visit. You can order free self-tests at zelftestonderwijs.nl (English available). Taking a self-test on a regular basis helps keeping fellow students and teachers safe.

Medical face mask
Wearing a type IIR medical face mask is mandatory when you move around the LUMC. These are available at the Education Service Desk. Lecturers may also ask their students to wear a face mask during lectures or tutorials, please honour such requests.

Positive test result?
We urgently advise you to notify your study advisor if your corona test result are positive. The study advisor will ask you about any physical contact you may have had on campus in the last few
days before the positive test. This information will be passed on anonymously to the Department of Safety Issues, which in turn will consult the GGD about the need of extra corona measurements.

Missing out on mandatory education activities?
Will you be missing mandatory on campus education activities because of quarantine? Please notify your teacher.
Where possible, the programme will provide the possibility to join the on campus activities online. For certain activities this is not an option (a.o. dissection, practicals). These activities will be either replaced by an alternative assignment or will be postponed to a later date within the academic year.

(Clinical) Interns
As an intern, you are an employee of the institute that is offering your internship. Follow the measurements that are in place at this institute and notify the Study Advisor of your positive test.

On campus education
Please clean your own desk before use with the provided materials in the lecture rooms and study spaces.

Lockers
Want to store your belongings? At the moment only the lockers in the foyer of the Education Building are in use for students.
Together for safe on campus education

The LUMC can only offer on campus education if everyone is abiding by the guidelines mentioned in this document. Do you see people ignoring the regulations? Feel free to remind them. Of course this also works the other way around. If you fail to adhere to the regulations, you may be spoken to by our staff. Please respect this. Together we keep our on campus education safe!

Routes

In order to separate the flow of patients, staff and students, we mapped out routes in our buildings. Take the stairs if possible. The scheme below shows the routes in and out of the LUMC buildings:

<table>
<thead>
<tr>
<th>Building</th>
<th>Entrance</th>
<th>Exit</th>
</tr>
</thead>
<tbody>
<tr>
<td>Main Building</td>
<td>• Use the bridge between the Education Building and the Main Building</td>
<td>• Leave via the exit next to the HePatho bar (K-0)</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• More scheduled on campus activities in the Education Building? You are allowed to use the bridge to return to the Education Building</td>
</tr>
<tr>
<td>Mail Building</td>
<td>Via main entrance P-0</td>
<td></td>
</tr>
<tr>
<td>Skills Lab</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Research Building</td>
<td>Via the underground bicycle shed of the Research Building</td>
<td>Via the underground bicycle shed of the Research Building</td>
</tr>
<tr>
<td>Dissection Room</td>
<td>• Use lockers in the Education Building (put on your labcoat)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>• The Dissection Room opens 15 minutes in advance</td>
<td></td>
</tr>
<tr>
<td>Research Building</td>
<td>Via the main entrance of the Research Building</td>
<td>Via the main entrance of the Research Building</td>
</tr>
<tr>
<td>Skills Lab</td>
<td>• Use lockers in the Education Building (put on your labcoat)</td>
<td></td>
</tr>
<tr>
<td>Education Building</td>
<td>Entrance on the side of the Parking Garage.</td>
<td>Exit on the side of the Research Building</td>
</tr>
</tbody>
</table>

Any questions?

Do you have COVID related questions regarding LUMC educational purposes (University degree programmes, Boerhaave Nascholing, Educatie Zorgsector)? Please contact the Education Service Point through this form, by mail at esp@lumc.nl or by phone at 071-526 8700.
