

# Checklist Admission Requirements

Crisis and Security Management MSc programme

This form is not required by students with a bachelor degree in Safety and Security Management Studies from the Haagse Hogeschool who meet the specific admission requirements mentioned on our website. Instead, they should include a checklist showing they meet the requirements.

The use of this form is recommended to students holding any other degree than mentioned above.

In the scheme below you must show to the CSM Board of Admission how you have acquired each competency. List relevant academic courses or other relevant academic experiences (such as internships, summer courses, thesis or extra-curricular research), including if applicable the amount of ECTS or credits assigned to them. For everything you list, you need to hand in supporting documents, such as grade lists and diploma supplements (can be one grade list and diploma supplement for all academic courses mentioned), course descriptions, syllabi or writing samples. You can upload supporting documents via the application portal in uSis (ideally, integrate the supporting documents into one pdf).

Please be aware that the Admissions Committee is unfamiliar with your specific curriculum. Via course descriptions the content of a course can be verified. In case the Board of Admissions is unable to verify the course content or experience, it will not be taken into consideration in the assessment of your application documents.

## Governance

Demonstrable theoretical knowledge of how the internal and external environment has an impact on the functioning and activities of national and international actors, and how these actors interact with each other (governance perspective).

## Crisis and/or Security Related Topics

Demonstrable theoretical knowledge of relevant contemporary and emerging security and/or crisis related challenges, and relevant developments in a globalized world.

A large, empty rectangular box with a thin black border, intended for the student to provide their response to the Crisis and/or Security Related Topics question.

## Empirical Research Skills

Demonstrable ability to theoretically, conceptually and/or empirically develop a research project, and subsequently analyse it using relevant research skills, with a focus on social science research skills.

A large, empty rectangular box with a thin black border, intended for the student to provide their response to the Empirical Research Skills question.
