

# DUTCH FIREARM VIOLENCE MONITOR

Universiteit  
Leiden

Katharina Krüsselmann, Pauline Aarten & Marieke Liem

# Coding Manual

| Nr | Variable name in SPSS                   | Level | Label  | Clarifying instructions   |
|----|---|-------|--|---|
| 1  | SERNR<br>Serial Number                  | Case  | Open variable (numeric)  | The serial number starts off with the submitting countries' country code times 10,000. Add one for every new row. Each number must be unique (only appear on one single row in the dataset) and by the first digits indicate the country of origin by country code.                               |
| 2  | CASENR<br>Case Number                   | Case  | Open variable (numeric)  | The case number starts off with the submitting countries' country code times 10,000. Add one for every new case. Each case must be unique (only appear on the rows that belong to the same case in the dataset) and by the first digits indicate the country of origin by country code            |
| 3  | CASEDESCENG<br>Case Description English | Case  | Open variable (string)   | A short description of the incident, containing most relevant information such as description of location and the context.  |
| 4  | DOC<br>Date of the incident             | Case  | Open variable (date)<br>999=Unknown  | Enter the date of the incident in following format: Yyyy/mm/dd  |
| 5  | COUNTR<br>Country of incident           | Case  | 0 = Same country the crime took place in<br>1 = Canada<br>2 = Unites states<br>3 = Puerto Rico<br>31 = Netherlands<br>-999 = Unknown<br>-998 = Unknown foreign country<br>-997 = Unknown Europe<br>-996 = Unknown North America<br>-995 = Unknown South America<br>-994 = Unknown Africa<br>-993 = Unknown Asia (west parts)<br>-992 = Unknown Asia (east parts)<br>-991 = Unknown Oceania<br>-990 = Other | Choose the country in which the firearm-related offence occurred. The value is the same as the country code (see the appendix in <a href="http://irep.ntu.ac.uk/id/eprint/28206/1/5724_Ganpat.pdf">http://irep.ntu.ac.uk/id/eprint/28206/1/5724_Ganpat.pdf</a> for a full list of country codes). |
| 6  | ADDRESS                                 | Case  | Open variable (string)<br>999=Unknown  | Fill in Street Name and House Number (if possible) for the place the incident took place  |

|    |  |                 |   |   |
|----|--|-----------------|---|---|
|    | Address where the firearm-related incident took place                    |                 |   |   |
| 7  | CITY<br>City the firearm-related offence was committed in                | Case            | Open variable (string)<br>999=Unknown   | Enter the city name the crime was committed in  |
| 8  | TARGETTYPE<br>Type of target the firearm related violence is directed at | Indiv.<br>Vic.  | 1 = Individual<br>2 = Animal<br>3 = Object<br>4 = No specific target<br>999 = Unknown                           | If multiple targets, choose the highest in the hierarchy.   |
| 9  | NRVIC_THREAT<br>Number of threatened victims                             | Case            | Open variable (numeric)<br>999 = Unknown<br>-999 = Unknown, but more than 1                                     | Indicate the number of threatened human victims involved in the case.<br><br>Enter -999 if total number is unclear, but there are sure indications that there are several victims   |
| 10 | NRVIC_NONLETHAL<br>Number of non-lethal victims                          | Case            | Open variable (numeric)<br>999 = Unknown<br>-999 = Unknown, but more than one                                   | Indicate the number of non-lethally physically harmed human victims involved in the case.<br><br>Enter -999 if total number is unclear, but there are sure indications that there are several victims   |
| 11 | NRVIC_LETHAL<br>Number of lethal victims                                 | Case            | Open variable (numeric)<br>999 = Unknown  | State the number of deceased victims involved in the case. A victim is defined as any person who is a victim of lethal violence.<br><br>Murder attempts, other forms of non-lethal violence in the same firearm-related incident are included in the variables NRVIC_THREAT and NRVIC_NONLETHAL |
| 12 | NRPERP<br>Number of perpetrators   | Case            | Open variable (numeric)<br>999 = Unknown<br>-999 Unknown, but more than one                                     | State the number of perpetrators involved in the case. A perpetrator is defined as any person who is suspected of and/or charged with violent firearm-related offences. Perpetrators that have been found not guilty are therefore included in the data.  |
| 13 | TYPEVIOL   | Indiv.<br>Perp. | 1 = against Partner<br>2 = against Child within family<br>3 = against Infant<br>4 = familial violence (general) | Choose the type of violence that best describes the case in reference to relationship, motive and situation between the perpetrator and the victim. The relationship between the victim   |

|    |                                      |      |   |   |
|----|--------------------------------------|------|---|---|
|    |                                      |      | <p>5 = Criminal milieu (rip deals, narcotics affairs etc)</p> <p>6 = Robbery violence: commerciabusiness (shop, bank, taxi etc)</p> <p>7 = Robbery violence: private home</p> <p>8 = Robbery violence: street robbery (civilian victim)</p> <p>9 = Nightlife violence</p> <p>10 = Violence by mentally disturbed person (non-family)</p> <p>11 = Other in non-criminal milieu</p> <p>12 = Violence by children, non-family related</p> <p>13 = Child harmed by adult, non-family related</p> <p>14 = Sexual</p> <p>15 = Other</p> <p>16 = Police/Law Enforcement on Duty</p> <p>999 = Unknown</p> | <p>and the perpetrator should usually be considered the most important variable when defining the type of firearm-related violence.</p> <p><i>Value 1</i> = Violence against partner refers to all violence that take place between two persons who have, or have had, an intimate relationship.</p> <p>Family members constitute any person with whom the victim has kinship as well as persons adopted by or married to a person with whom the victim has kinship:</p> <p><i>Value 2</i> = Violence against child within family refers to children between the age of 1 and 18 years old being harmed by a family member.</p> <p><i>Value 3</i> = Violence against infant refers to the harm of children up to one year of age.</p> <p><i>Value 4</i> = Cases where a grown up son or daughter is the victim or the perpetrator of a violent crime involving e.g. their parents are defined as familial violence. Parent is defined as biological mother or father as well as anyone with whom the victim has or has had an equivalent social or legal relationship.</p> <p><i>Value 12</i> = Violence by children, not family-related refers only to violence by individuals under the age of 14.</p> <p><i>Value 13</i> = Child harmed by adult, not family-related refers only to violence with victims under the age of 14.</p> <p>Adult is defined as any person over the age of 18.</p> |
| 14 | LETHAL<br>Was the violence lethal?   | Case | <p>1 = Yes, only lethal</p> <p>2 = No, only non-lethal</p> <p>3 = both lethal and non-lethal</p> <p>999 = Unknown</p>   | <p>Indicate whether the firearm-related case can be categorized as a lethal case, as it entails at least one deceased victim due to firearm violence</p>  |
| 15 | SOLVED<br>Has the crime been solved? | Case | <p>0 = No</p> <p>1 = Yes</p> <p>999 = Unknown</p>   | <p>This means that the cases that are cleared or “exceptionally cleared” by the police are considered solved. However, there might exist</p>  |

|    |   |      |  |  |
|----|---|------|--|--|
|    |   |      |  | slight national variations in the definition of when a case is considered solved. In general, “cleared cases” are cases in which the suspect has been arrested and turned over for further prosecution. Exceptionally cleared cases are cases in which the suspect is known, but in which an arrest and prosecution is not possible, for example because the suspect died, or fled to a different jurisdiction |
| 16 | YEARCOM<br>Year the crime was committed | Case | Open variable (numeric)<br>999 = Unknown   | State the year the crime was committed (four-digit number, e.g. 2008)  |
| 17 | MONTH<br>Month the crime was committed  | Case | 1 = January<br>2 = February<br>3 = March<br>4 = April<br>5 = May<br>6 = June<br>7 = July<br>8 = August<br>9 = September<br>10 = October<br>11 = November<br>12 = December<br>999 = Unknown | State the month the crime was committed  |
| 18 | WDAY<br>Day the crime was committed     | Case | 1 = Monday<br>2 = Tuesday<br>3 = Wednesday<br>4 = Thursday<br>5 = Friday<br>6 = Saturday<br>7 = Sunday<br>8 = Day unknown, Mon-Thu<br>9 = Day unknown, Fri-Sun<br>999 = Unknown            | State the day of the week the crime was committed  |
| 19 | TIME<br>Time the crime was committed    | Case | 1 = Morning (6.00 to 12.00)<br>2 = Afternoon (12.00 to 18.00)<br>3 = Evening (18.00 to 24.00)<br>4 = Night (0.00 to 6.00)<br>999 = Unknown   | Indicate the time of day that the crime was committed  |
| 20 | CRIMESCENE<br>Crime location            | Case | -4 = Private home, resident unknown  | Indicate where the act of lethal violence took place. This refers to where the crime was   |

|    |   |              |   |  |
|----|---|--------------|---|--|
|    |   |              | <p>1 = Private home of victim and perpetrator<br/> 2 = Private home of perpetrator<br/> 3 = Private home of victim<br/> 4 = Private home of another person<br/> 5 = Institution, dormitory<br/> 6 = Hotel or motel<br/> 7 = Inside a car or other private vehicle<br/> 8 = Park, forest or recreational area<br/> 9 = Shop, restaurant or other place of entertainment and amusement (coffee shop, bar, amusement park, etc)<br/> 10 = Street, road, public transportation or other public place<br/> 11 = Workplace<br/> 12 = Other<br/> 999 = Unknown</p> | <p>committed, not necessarily the place a body was found. If not known, choose 999.</p> <p>Private home ( values -4, 1, 2, 3, 4) means in or around the home, including the attic, basement, staircase, garden etc. If the homicide has taken place in a private home, but it is unclear which of the values 1-3 you should choose, then you should use -4.</p> <p>Institution, dormitory (value 5) includes hospitals, prisons, dormitories and homeless shelters.</p> <p>Value 10 also applies to queues, parking lots, on a train or in a school.</p>   |
| 21 | <p>URBANIZATION</p> <p>Was the crime committed in an urban or rural area?</p>     | Case         | <p>1 = Urban<br/> 2 = Intermediate<br/> 3 = Rural<br/> 999 = Unknown</p>  | <p>Indicate whether the crime was committed in an urban, intermediate or rural area.</p> <p>Definition of rural, intermediate and urban based on Eurostat: “rural areas are all areas outside urban clusters. Urban clusters are clusters of contiguous grid cells of 1km<sup>2</sup> with a density of at least 300 inhabitants per km<sup>2</sup> and a minimum population of 5000.”</p> <p>See population structure by urban/rural typology in Europe in this map:<br/> <a href="https://ec.europa.eu/eurostat/cache/19RCI/#?vis=urbanrural.urb_typology&amp;lang=en">https://ec.europa.eu/eurostat/cache/19RCI/#?vis=urbanrural.urb_typology&amp;lang=en</a></p> |
| 22 | <p>NUTS3</p> <p>Code for small sized area where crime was committed</p>           | Case         | Open variable (string)  | <p>Indicate in which NUTS 3 region (Nomenclature of Territorial Units for Statistics) the crime was committed. See the following website for a full list and further details: <a href="http://epp.eurostat.ec.europa.eu/portal/page/portal/nuts_nomenclature/introduction">http://epp.eurostat.ec.europa.eu/portal/page/portal/nuts_nomenclature/introduction</a></p>  |
| 23 | <p>MOTIVECRIME</p> <p>What was the main motive of the firearm-related offence</p> | Indiv. Perp. | <p>1 = Revenge<br/> 2 = Jealousy<br/> 3 = Separation<br/> 4 = Triviality<br/> 5 = Hate Crime</p>  | <p>Indicate per perpetrator the main motive for committing the offence</p>   |

|    |  |                |  |   |
|----|--|----------------|--|---|
|    |  |                | <p>6 = Perpetrator threatened<br/> 7 = Self-Defense<br/> 8 = Mental illness/psychological disorder<br/> 9 = Altruism<br/> 10 = Financial, but not in itself criminal<br/> 11 = Financial, and of criminal nature<br/> 12 = Rape or sexual offence<br/> 13 = Other criminal nature<br/> 14 = Other<br/> 999 = Unknown</p>   |   |
| 24 | RELAT<br>Relationship between victim and perpetrator | Indiv.<br>Vic. | <p>0 = Perpetrator and Victim do not know each other<br/> 1 = Husband<br/> 2 = Ex-Husband<br/> 3 = Boyfriend<br/> 4 = Ex-boyfriend<br/> 5 = Wife<br/> 6 = Ex-Wife<br/> 7 = Girlfriend<br/> 8 = Ex-Girlfriend<br/> 9 = Father<br/> 10 = Stepfather<br/> 11 = Mother<br/> 12 = Stepmother<br/> 13 = Child<br/> 14 = Stepchild<br/> 15 = Sibling<br/> 16 = Grandparent or great grandparent<br/> 17 = Other relative<br/> 18 = Housemate or flatmate (previous or present)<br/> 19 = Co-worker (previous or present)<br/> 20 = Classmate (previous or present)<br/> 21 = Teacher (previous or present)<br/> 22 = Schoolmate (previous or present)<br/> 23 = Patient (previous or present)<br/> 24 = Therapist (previous or present)</p> | <p>Enter the value for the relationship that the victim has to the perpetrator (i.e. the victim is the (variable value) of the perpetrator).<br/> In cases of “overlapping” relations e.g. when the victim is a neighbour as well as a friend of the perpetrator, use the value that describes the principal (first and/or most important) status of the relationship. If this is not possible, use the value that indicates the most objective circumstance in the relationship.</p> <p>In the case of neighbour and friend, this means that the code for neighbor (value 27) should be used if the victim and perpetrators were neighbours before they were friends and/or because being neighbours is factual while the extent of their friendship is harder to determine.</p> <p>If the victim is a mistress or lover of the perpetrator, code girlfriend (value 7) or boyfriend (value 3). If the victim is the child of the perpetrator’s unmarried partner, code stepchild (value 14). If victim is the parent of the perpetrator’s partner, code other relative (value 17).</p> <p>In cases of partner-relations of the same sex, use the values 1-4 if it is a female-female relationship, and the values 5-8 if it is a male-male relationship. E.g. if a woman is harmed by a woman she is married to, the relationship is coded as a 1, and if a man is killed by his ex-boyfriend, the relationship is coded as an 8. In same-sex-relations where the martial or</p> |

|    |                                     |                 |  |   |
|----|-------------------------------------|-----------------|--|---|
|    |                                     |                 | <p>25 = Prostitute (previous or present)</p> <p>26 = Purchaser of sexual services (previous or present)</p> <p>27 = Neighbour</p> <p>28 = Friend or long-time acquaintance</p> <p>29 = The perpetrator and victim are slightly known to each other (not friends)</p> <p>30 = New acquaintance (met in the last 24 hours)</p> <p>31 = Partner or ex-partner (marital or engagement status unknown)</p> <p>32 = Partner or ex-partner of the same sex; males (marital or engagement status unknown)</p> <p>33 = Partner or ex-partner of the same sex; females (marital or engagement status unknown)</p> <p>34 = Tenant</p> <p>35 = Property Owner</p> <p>999 = Unknown</p> | <p>engagement status is unknown, use value 32 or 33.</p>  |
| 25 | SUICIDE<br>Perpetrator's Suicide    | Indiv.<br>Perp. | <p>0 = No</p> <p>1 = Yes</p> <p>2 = Suicide Attempt Only</p> <p>99 = Perpetrator unknown</p> <p>999 = Unknown</p>  | <p>Indicate if the perpetrator tried to/did commit suicide after having committed the crime. Earlier attempts are not to be included.</p> <p>In cases with multiple perpetrators, enter the value for each perpetrator on each row. On the row of the victim you should indicate the answer for the principal perpetrator</p>   |
| 26 | SUICIDE_METHOD<br>Method of Suicide | Indiv.<br>Perp. | <p>0 = The perpetrator did not commit suicide</p> <p>1 = Overdose, legal substance</p> <p>2 = Overdose, illegal substance</p> <p>3 = Hanging, suffocation, strangulation</p> <p>4 = Drowning</p> <p>5 = Firearm</p> <p>6 = Explosives</p> <p>7 = Smoke or fire 8 = Knife/cutting</p>   | <p>Indicate the method of the suicide. The labels are loosely based on the ICD 10 list of Assault under the chapter External causes of morbidity and mortality (World Health Organisation, International Classification of Diseases, 1990).</p> <p>If multiple methods have been used, choose the method highest up on the list. Suicide attempts not included (value 0).</p> |

|    |  |              |   |  |
|----|--|--------------|---|--|
|    |  |              | <p>9 = Blunt object<br/> 10 = Jumping in front of or from something<br/> 11 = Motor vehicle 12 = Other<br/> 99 = Perpetrator unknown<br/> 999 = Unknown</p>   |  |
| 27 | <p>NRFIREARM<br/> Number of firearms used in incident</p>                  | Case         | <p>Open variable (numeric)<br/> 999 = Unknown<br/> -999 = Unknown, but more than once</p>   | <p>Indicate the number of firearms used during the incident. This includes only firearms that were used to physically, or psychologically harm the targets, e.g. by shooting or threatening.</p> |
| 28 | <p>TYPEFIREARMSPEC<br/> Specific type of firearm used</p>                  | Indiv. Perp. | <p>1 = Revolver<br/> 2 = Pistol<br/> 3 = Sub-auto-machine<br/> 4 = Shotgun<br/> 5 = Rifle/Carrabin<br/> 6 = Machine Gun<br/> 7 = Combination Gun<br/> 8 = Flaubert<br/> 9 = Air gun<br/> 10 = Gas gun<br/> 11 = Alarm Pistol<br/> 12 = Signal Pistol<br/> 13 = Folkloric/Historical/Antique firearm<br/> 14 = Acoustic expansion<br/> 15 = Imitation firearm<br/> 16 = Deactivated firearm<br/> 17 = Toy firearm<br/> 18 = Grenades<br/> 19 = Handgun, Unknown Type<br/> 20 = Long gun, unknown type<br/> 21 = Other<br/> 999 = Unknown</p> | <p>Indicate the specific type of firearm used in the violent offence.</p>  |
| 29 | <p>FIREARMTECH<br/> Technical information on firearm</p>                   | Indiv. Perp. | <p>1 = single-shot<br/> 2 = semi-automatic<br/> 3 = automatic<br/> 4 = repeating<br/> 999 = Unknown</p>   | <p>Categorize technical detail of firearm</p>  |
| 30 | <p>FIREARMCONV<br/> Was the firearm converted previous to the offence?</p> | Indiv. Perp. | <p>0 = No<br/> 1 = Yes<br/> 999 = Unknown</p>   | <p>Add if firearm was converted (by perpetrator or other) before the offence</p>   |

|    |   |                 |   |  |
|----|---|-----------------|---|--|
| 31 | FIREARMCOM<br>Further description of firearm  | Indiv.<br>Perp. | Open variable (string)<br>999 = Unknown   | Add further details about the firearm used, e.g. brand, model or caliber   |
| 32 | FIREARMACQ<br>How was the firearm obtained?   | Indiv.<br>Perp. | 0 = individual has no firearm<br>1 = firearm was bought by individual<br>2 = firearm was a gift<br>3 = firearm was borrowed<br>4 = firearm was stolen<br>5 = firearm was assembled<br>6 = firearm was crafted<br>7 = firearm was produced<br>999 = Unknown                  | Indicate how the individual obtained the firearm. If firearm was owned by a family member or someone living in the same household, choose 'borrowed' or 'stolen', depending on context.  |
| 33 | FIREARMLIC<br>Specifics of firearm license  | Indiv.<br>Perp. | 0 = illegal firearm<br>1 = legal, unspecified<br>2 = legal, law enforcement<br>3 = legal, collector<br>4 = legal, official trader<br>5 = legal, permit holder (unspecified)<br>6 = legal, permit holder hunting<br>7 = legal, permit holder sport-shooting<br>999 = Unknown | Indicate the legal status of the license of firearm holder. The firearm holder can be the perpetrator, or someone else, e.g. someone the firearm got stolen from.  |
| 34 | FIRED<br>Did individual fire with the firearm?  | Indiv.<br>Perp. | 0 = No<br>1 = No, but used to threaten<br>2 = Yes, but firearm blocked<br>3 = Yes, by accident<br>4 = Yes, intentionally<br>999 = Unknown   | Indicate whether the perpetrator pulled the trigger.   |
| 35 | PREFIREARM<br>Has the perpetrator previously been convicted for firearm-related crimes? | Indiv.<br>Perp. | 0 = No<br>1 = Yes, for non-violent firearm offence<br>2 = Yes, for violent firearm offence<br>3 = Yes, details unknown<br>999 = Unknown   | Indicate whether the perpetrator has been found guilty of firearm-related offences prior to this offence.<br><br>Indicate whether the perpetrator was sentenced for violent or non-violent firearm related offences. If perpetrator was sentenced for both violent and non-violent offences, choose value 2. |
| 36 | BULLETBODY<br>Where did the bullet hit the body?  | Indiv.<br>Vic.  | 0 = Bullet did not hit the body<br>1 = Head<br>2 = Throat   | Indicate if, and if so, where the bullet hit the body of the victim  |

|    |   |                 |  |  |
|----|---|-----------------|--|--|
|    |   |                 | 3 = Left chest<br>4 = Right chest<br>5 = Back<br>6 = Abdomen/stomach<br>7 = Legs<br>8 = other body parts<br>999 = Unknown  |  |
| 37 | <b>FIREARMPOSS</b><br>Reason for firearm possession   | Indiv.<br>Perp. | 0 = individual does not possess firearm<br>1 = hunting<br>2 = collection<br>3 = law enforcement and other professional reasons<br>4 = hobby and sports<br>5 = other reasons<br>999 = Unknown | Indicate the main reason why the perpetrator owned the firearm<br><br>Value 5 includes criminal and self-defense reasons.  |
| 38 | <b>TYPE</b><br>Is the individual a victim or perpetrator?   | Indiv.          | 0 = Victim<br>1 = Perpetrator  | Indicate whether the case row concerns a victim or a perpetrator   |
| 39 | <b>PRINCIPAL</b><br>Is the individual a principal victim or a principal perpetrator in the firearm offence? | Indiv.          | 0 = No<br>1 = Yes, principal perpetrator<br>2 = Yes, principal victim<br>999 = Unknown   | Indicate whether the row concerns a victim or a perpetrator that can be considered to be a principal individual in the case.<br><br><i>The principal perpetrator</i> = The perpetrator that has been prosecuted (see variable 72). If more than one perpetrator is prosecuted, then the principal is the one with the most severe sentence (see variable 73). If two or more of the perpetrators have equal sentences, then choose the one with the most severe sanction (see variable 74). If that also is equal, then it is the one with the closest relationship to the victim (see variable 47). If that also is equal, choose randomly.<br><br><i>The principal victim</i> = The victim with the closest relationship to the perpetrator. If the victim and perpetrator are equally as close, or the relationship is unknown, choose the victim that has been harmed most. If the relationship is equal or unknown, choose the oldest victim as the principal victim. If all victims are of the same age or if their age is unknown, choose randomly. |
| 40 | <b>GENDER</b><br>Gender of the individual   | Indiv.          | 1 = Male<br>2 = Female   | State the gender of the individual   |

|    |   |        |  |  |
|----|---|--------|--|--|
| 41 | AGE<br>Age of the individual              | Indiv. | Open variable (numeric)<br>150 = Unknown, 15 years or over<br>151 = Unknown, under 15 years<br>999 = Unknown   | State the age of the individual (at the time of the crime)   |
| 42 | CITIZ<br>Citizenship of individual        | Indiv. | 0 = Same country the crime took place in<br>1 = Canada<br>2 = Unites states<br>3 = Puerto Rico<br>-999 = Unknown<br>-998 = Unknown foreign country<br>-997 = Unknown Europe<br>-996 = Unknown North America<br>-995 = Unknown South America<br>-994 = Unknown Africa<br>-993 = Unknown Asia (west parts)<br>-992 = Unknown Asia (east parts)<br>-991 = Unknown Oceania<br>-990 = Other | Indicate the citizenship of the individual. In cases of double citizenship, choose the country of residence first and the country of birth second. Use the official country code for the nation (see the appendix in <a href="http://irep.ntu.ac.uk/id/eprint/28206/1/5724_Ganpat.pdf">http://irep.ntu.ac.uk/id/eprint/28206/1/5724_Ganpat.pdf</a> for a full list of country codes).<br><br>The United States and Puerto Rico have the same country code as Canada (value 1). Therefore, use value 2 for the United States and value 3 for Puerto Rico.<br><br>Note the different “unknown” values at the bottom of the list. If individuals are born in countries that no longer exist, e.g. former Yugoslavia or USSR, and it is unknown in which part they were born according to new values (e.g. Serbia, Bosnia, Belarus, etc.), code them as being born in the biggest new country by population. At present (2011): Yugoslavia = Serbia and USSR = Russia. |
| 43 | CIVIL<br>Civil status of individual       | Indiv. | 1 = Married<br>2 = Cohabitants<br>3 = In a boyfriend/girlfriend relationship<br>4 = Single<br>5 = Divorced<br>6 = Widowed<br>999 = Unknown   | State the civil status of the individual   |
| 44 | PROF<br>Professional status of individual | Indiv. | 0 = Working class<br>1 = Intermediate<br>2 = Managers and professionals<br>3 = Retired<br>4 = Unemployed<br>5 = Sick-listed or disabled<br>6 = Not yet of school age<br>7 = Student<br>8 = Military service  | Labels 1-3 are based on the European Socio-economic Classification. Se the following webpage for more details of which professions are included in the three categories:<br><a href="http://www.iser.essex.ac.uk/research/esec/user-guide/detailed-categorydescriptions-and-operational-issues">http://www.iser.essex.ac.uk/research/esec/user-guide/detailed-categorydescriptions-and-operational-issues</a> .  |
