## LUC Admission interview information Liberal Arts & Sciences: Global Challenges

### Have you been invited for an admission interview?

If you receive a message from the admissions office that you are selected for an interview, you will be provided with a link to an online booking system in which you can select the day and time of your interview.

All admission interviews will be held via Microsoft Teams. The Admissions Office will provide you with the necessary information for your interview in the interview invitation. After you have scheduled your admission interview, the link to the interview platform will be provided in the confirmation email.

### What is the interview for?

The interview is in English and will be conducted by one LUC The Hague academic staff member. It is designed to assess your academic potential for LUC's Liberal Arts and Sciences: Global Challenges programme. Our academic staff are looking for students who are self-motivated but also enthusiastic about what is on offer at LUC.

Make sure that you take your time to read through the website, the content of the programme and what you have answered in your motivation letter, before the interview takes place. Decisions will be based on your ability to think independently and to engage with new ideas, beyond the scope of what you have already indicated in your motivation letter.

The interviewers understand that you may be nervous, and want you to feel comfortable. The interview may start with a few questions regarding your motivation form answers, and then move onto a conversation that enables you to think and question, and demonstrate your knowledge and skills.

### How do you prepare for the interview?

In order for the interview to go smoothly, make sure that:

- you have stable access to the internet
- you have a computer/laptop or other device that has access to the internet
- you tested if you have access to Microsoft Teams with your device (Google Chrome is advised)
- you have a working camera
- you have a working microphone (preferably a headset too)
- you have a quiet place where you can do the interview
- you access the interview platform through the link several minutes before the interview starts
- you take the time difference into account

Please inform the Admissions Office if you are delayed or are facing other issues at the time of the interview. You can call the following number: +31 (0)70 800 9185.
