General and additional diploma requirements

Admission 2024-2025

Would you like to find out whether you might be eligible for admission to a Bachelor's programme at Leiden University? Leiden University's Admissions Office has drawn up a list of the most common non-Dutch diplomas that meet the minimum admission requirements. Where applicable, minimum grades and language test exemption criteria have been included.

Important notes:

- The fact that a diploma is on the Admissions Office's list does not mean that it is always considered equivalent to a Dutch pre-university diploma (VWO diploma), nor that it will automatically guarantee you admission. Grades, subjects followed, and subject levels are also considered. For Dutch language exemptions and mathematics requirements for other Bachelor programmes than Liberal Arts and Sciences: Global Challenges, please view these requirements [here](#).
- A decision on admission will only be taken after you have submitted a complete online application for admission.
- If you do not (expect to) meet the minimum requirements, an alternative pathway to admission can be to first complete at least one year of a bachelor's programme at a research university in your country, with good results.
- Leiden University College The Hague and 'numerus fixus' study programmes have a selective admissions procedure. This means that meeting the admission requirements does not guarantee a place.
- Programmes in the fields of [mathematics and natural sciences](#), [medicine](#) and [classics](#) all require knowledge of compulsory subjects at Dutch VWO (pre-university diploma) level. Programmes in the field of [social and behavioural sciences](#) will also consider the amount/level of mathematics included in your diploma. Depending on your level in these subjects, you may be instructed to take additional entrance examinations.
- For admission to Liberal Arts and Sciences: Global Challenges view the additional admission requirements listed separately for each diploma.

If you require further information regarding admission to Liberal Arts and Sciences: Global Challenges, please contact [LUC's Admissions Office](#).

If you require information regarding admission to other Bachelor programmes of Leiden University, please contact [the Student Affairs Front Office](#).
