

RESEARCH CLINIC

General information

Supervisor:	Dr. Maja Vodopivec
Title of clinic:	Post-conflict reconciliation in Europe and Asia
Number of students:	2-3
Major (<i>if applicable and approved by the Major Convener</i>):	Elective
(Pre)requisites (<i>if applicable</i>):	Students of WP, IJ and HD are encouraged to apply.

Research context

This research clinic will work on reviewing literature related to post-conflict reconciliation in different contexts, with a focus on Europe (Northern Ireland, Yugoslavia) and East Asia (Japan, China, Korea, Taiwan). There is still little research on why some people after the conflict achieved reconciliation and others failed.

Students' tasks and activities

Please specify the tasks and activities, timeline, the learning aims and how they are assessed, i.e. what the deliverables will be.

Students are expected to review the academic literature on the topic of reconciliation in general, and also to review various practices in Europe (Northern Ireland, Yugoslavia) and East Asia (Japan, Korea, China, Taiwan).
