### Professional experience

01-09-'11 up till now Coach at Stumass Amsterdam. Stumass is a national organization with guided living projects for students with autism in the Netherlands. Students receive coaching in independent living- and studying skills. I am responsible for drafting and executing treatment plans for specific students and managing the Stumass amstelveen house with my colleagues.

01-10-'13 up till now PhD candidate at the Child and Education Development department of Leiden University. On behalf of the scientific council of Stumass we started the Stumass project at Leiden University. Tasks: Setting up, monitoring and evaluating a study into the predictors of study succes and quality of life in students with- and without autism. In this project I trained and supervised master students in conducting research. Output: scientific articles and practical recommendations for

Stumass.

15-09-'15 up till now

Volunteer War Child. Gained experience in raising money and organizing fundraisers during the "Kili Challenge".

After the Kili Challenge I started as a volunteer for the TeamUp project in Amsterdam (weekly play- and sports activities for refugee children). Since the start of TeamUp in Amsterdam I am Team Captain for the thursday team (younger kids). Ongoing development and experience in children's rights, child safety, working with the TeamUp manual and handbook, sports- and play activities and coordination of a TeamUp team.
