Online Master's Week
from 3 - 5 November

Programme presentations

Watch a programme presentation: there's one for each of our master's programmes. Or choose from a wide variety of sessions with practical information on housing, visas, applications, admissions – and student life itself!

Virtual stands

Got questions before or after a presentation? Our professors and student ambassadors at the virtual stand at the online information market are ready to help. You can find them at the online information market or in the chat section one hour before and two hours after each programme presentation.

Chat with students and staff

First-hand knowledge is just a click away. Go to the chatroom and chat with students and staff from a programme of your choice straight away.

Online information market

In addition to virtual programme stands, you will also find stands on the information market that aren't directly related to our study programmes. Here you'll find Leiden University Sports Centre, the Academy of Creative and Performing Arts and many other facilities. You'll also find stands with practical information on housing, visas and admissions and applications.

Take a virtual tour

Explore the cities of Leiden and The Hague and our faculties and classrooms too in one of our virtual tours. Our students are waiting to answer all your questions on student life and what it's like to study at Leiden University.

Free time between presentations?

Check out which presentations are going on in the 'Now Live' section. You might find a programme you would never have considered otherwise. Life is full of surprises!
